

In this famous picture of a naked twenty-four-year-old David Cassidy, Annie Leibovitz captures the elation of narcissistic boyhood at the height of its beauty. David Cassidy became the fave rave of a whole generation of little girls in a TV soap opera; at the age of twenty-one he was the highest paid performer in the world. Issue 108 of *Rolling Stone* in which Leibovitz's picture originally appeared is still the most demanded back number of the magazine.
