

Horoscope

As this is David's Birthday month, here's a pic of the grooviest Arian on the scene

ARIES

You've been walking around in the dark recently. But any time now realisation will dawn that those you thought were against you aren't so bad after all.

TAURUS

A good month for you. There are signs that more than one surprise will be coming your way.

GEMINI

A letter could lead to a change in plans.

CANCER

Work is tough, specially early in the month. But keep slogging and you'll get there in the end.

LEO

It might be a good idea to take your Mum or a friend along if you're shopping for something important this month.

VIRGO

Life's starting to brighten up for you now. Don't wear yourself out with too many late nights though – even the most beautiful of us need our beauty sleep!

LIBRA

People at home may seem a bit over-protective, but you can be sure they don't mean any harm – they're just trying to think what will be best for you.

SCORPIO

By the middle of the month old problems will be sorting themselves out a bit and you'll be taking a more carefree attitude to life.

SAGITTARIUS

Romance is on the up-grade for you. You might not have noticed this too much – but always remember that there's more to love than outward show.

CAPRICORN

Someone close to you is feeling a bit depressed. Do your best to help them, but don't let their feelings rub off on you!

AQUARIUS

It looks as though this could be a profitable month for you in more ways than one.

PISCES

Plans laid last month should be starting to bear fruit now. At all costs avoid having any major rows early in the month.
