

POPSWOP

Apply Iron on Prints to: Jeans and T-Shirts, Skirts and Blouses, Aprons and Tea Towels, Dresses and Jackets, Shirts and Pants, Caps and Hats, Curtains and Cushions, Sheets and Pillow Cases, Tablecloths and Napkins and any other cotton materials.

APPLICATION INSTRUCTIONS

1. Set iron to cotton temperature and allow iron to heat for 15 minutes.
2. Before application check that the fabric is clean and grease free.
3. Place a complete newspaper folded in half under the area of the fabric on which the print is to be applied.
4. Iron the fabric application area for approximately 45 seconds to remove all creases and unevenness and allow to cool.
5. Place print face down on fabric and iron backing paper using firm even pressure over all parts of design for one minute. Do not rub iron over the print as this may cause smear.
6. Pull the corner of backing sheet to check that the print has transferred, if not replace and iron appropriate area.
7. Remove backing sheet and allow to dry for 30 minutes.

WASHING AND DRY CLEANING

Iron on Prints are wash resistant to soap and detergents. They can be boiled, spun dried or dry cleaned as long as the application instructions have been followed.
