

♈ ARIES

(March 21-April 20)

David April 12

David and Elton are ... energetic, enthusiastic, impulsive, positive!

Aries people are pioneers! They're the ones who forge ahead with new ideas and trends. (That's David and Elton for you. No one could be trendier than they are!).

This is the first fire sign of the zodiac, so Arians are always busy!

It's a sign of strength, force and energy — but sometimes the fire burns too bright and too fast for most people. There's nothing an Arian likes better than praise and flattery (that's not too difficult with these two!) and they're usually very direct in their approach — no beating about the bush!

Arians fall in love quickly — and often, fall out of love just as fast! But once they've found the right girl, they usually stick by her and shower her with lots of attention. They like the notion of having someone by their side who's as "go-ahead" as they are!

mix'n'match

If you're ...

Aries

Sparks fly in the beginning but you may get on each other's nerves, and later the relationship may fizzle out.

Taurus

If you can be patient with him, it would be a nice match!

Elton March 25

Gemini

There's every chance of success here — just as long as both of you learn to give and take.

Cancer

His strong personality may overpower you! It would be difficult to achieve harmony.

Leo

There could be lots of quarrels between you two! Very fiery.

Virgo

You're direct opposites in many ways. Sorry, not a very good match.

Libra

He likes to run everything — including you! So — your link-up with an Arian should be avoided.

Scorpio

You're the emotional type — he isn't! Better stay clear.

Capricorn

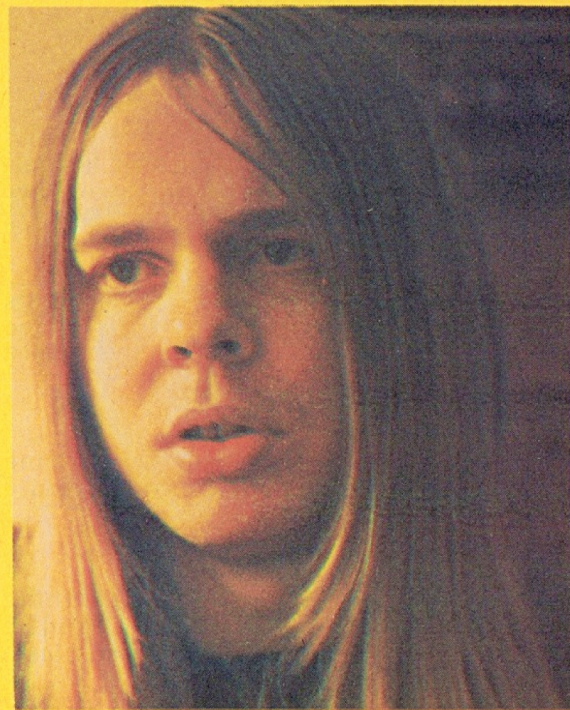

A casual relationship is best for you two. Anything deeper might cause problems.

Aquarius

You may put him off by your interest in other people. But you're both busy types. An active but shaky relationship!

Pisces

He'll never understand your changeable moods, so you'd both have to give and take for success!

Rick Wakeman

May 18

Rick and Pete are ... stubborn, kind-hearted, strong-willed.

Taurus people are hard workers! They're practical and careful and hardly ever rush into a situation. Patience is their key to success.

Strong feelings here. But often, Taureans find it difficult to express them in speech or writing. Music and painting are where their talents flow. They don't like short cuts and take great pride in producing something solid and useful.

In love, the Taurean is faithful and true. And once he reaches a decision there's no changing his mind! He likes the chase, though he can be on the shy side. You'll always be able to depend upon him!

If you're ...

Aries

He can be very possessive! Not an ideal match for you.

Taurus

A good chance for happiness, if you can overcome boredom.

Gemini

You're a bit too restless for him, although you could lighten his heart. Not a very enduring relationship.

Cancer

A lot of affection between you two. You'll find happiness together!
