A FEW MORE FACTS:

David plays both acoustic and electric guitar, drums—and, of course, sings! He has no favourite colour, liking every colour in the rainbow. He does, however, have a favourite food in lobster. What with filming the Partridge Family TV Show all year round, recording in the studio and doing live concerts, David has little time for hobbies—but he does enjoy watching American football on television, and playing tennis when he

gets the chance. He likes horse-riding and getting into the country, and hates being in over-crowded places. In a girlfriend, he looks for someone natural, bright and alert and entirely honest—no phonies! David's ambition—"I want to become a good actor more than anything. My recording career is certainly important to me—but acting is where my main interest lies. Proving my ability in that will make me a happy man!"
