David was almost overfed by the party girls, but he didn't let his brother out of his sight

These photos from a party in Hollywood are a rarity! Until now, David Cassidy has strictly avoided appearing in public with his brother Shaun and being photographed with him. He has now made an exception for BRAVO. David: "I wanted to keep Shaun away from show business for as long as possible because I thought he was still too young for it." The occasion of the party was the birthday of popular American TV commentator Elliot Mintz, with whom David Cassidy is writing a book about his experiences as a teen star. David arrived in an open sports shirt, Shaun in a smart tuxedo and bow tie. It was clear that David wanted to introduce his little celebrity brother to the Hollywood prestige. Right from the start, they were surrounded by pretty female party guests. But despite all the temptations, David didn't leave Shaun's side the whole evening. They whispered and laughed together and seemed to get on famously. The days when David smiled at 16-year-old Shaun's show plans seem to be over for good. Shaun revealed: "To get into a routine, I'm going to play a few guest roles in TV series and then concentrate fully on the music."
