

**HOME IS WHERE THE HEART IS — David Cassidy — RCA APLI-1309 — Producer: David Cassidy and Bruce Johnson — List: 6.98**

Along the lines of his earlier albums as lead singer for television's highly popular "Partridge Family" series, Cassidy continues to grow in ways that have made him an indelible notion in the hearts and other private places of his legion of followers. Not content to be a former superstar, Cassidy has made it his aim to keep after the artistic edge. His efforts are reflected here in mirror-finish though a number of programming possibilities ranging from pop to progressive. Look for label support and place the LP where the artist's face can be seen — sells itself.
