

"New Morning"

David Cassidy, Bobby Sherman, Danny Bonaduce, Donny Osmond, Susan Dey and Jack Wild. Who are they? They're the new found idols of the eleven year old female set, that's who. Anyone can find mountains of reading material on anyone of the above listed people by reading FAVE, 16, SPEC or TIGER BEAT. Don't tell me that you've never heard of any of those fantastic magazines? The best way to find out what these magazines have to say is to pick one up and page through it.

By John Griffin

Up until about last August, Bobby Sherman was the reigning hero of the ten-year-old set. But then last September when "The Partridge Family", starring David Cassidy, started broadcasting on Friday nights, Bobby was dethroned and David replaced him as king. Ah, but Bobby didn't give up so easily and he still is fighting to again be No. 1. He's even getting his own TV show next fall. But that isn't all. The "Osmond Brothers", a group of five brothers, are also getting their own show next fall and they promise to be a strong contender for the coveted title. The Osmonds are led by a little kid named Donny who looks like he should advertise his teeth for a toothpaste commercial.

Here are some excerpts from a few fan magazines:

From SPEC: "Can You Pass David's Kiss Quiz?", "Susan Dey Tells All On David Cassidy!", "David Cassidy's Tragic Illness!" (His "tragic illness" was a small problem with his left eye that forced him to wear glasses) and "Bobby's Startling Confession - 'Im NOT a Good Guy!'"

From FAVE: "Bobby Wonders: Am I Asking Too Much?"

From 16: "How'dya Like To Have The Keys To David's House?" and "Donny Osmond: Watch Out - He'll Break Your Heart!"

From NEW MORNING: Are you satisfied? Do you want to see more? Now that you're filled with excitement and anticipation, are you sure that this is enough to fulfill your interests in David, Bobby, Donny, et al? If not, then rush out right now and buy your favorite fan magazine.

But if this was too much for you, then you're probably at least half intelligent and over 14. If you are in your late teens, the above probably made you sick. But if you are over 21, the excerpts probably made you sick and laugh at the same time. My opinion is: What kind of guy wants to make teeny-bopper music and be the idol of eleven-year-old girls? A guy like David Cassidy or Bobby Sherman, I guess.
